Electrical Insulating Mats up to volts!

We Protect Your Personnel

Against

Deadly Electrical Shocks

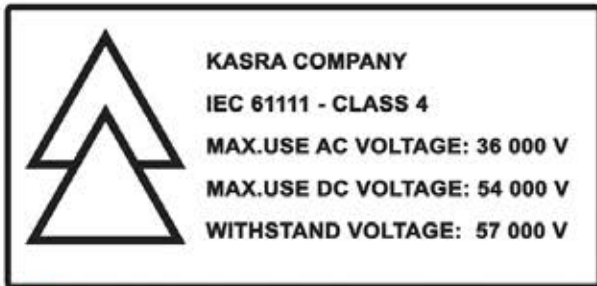

Kasra Company is one of the chief manufacturers and exporters of **Electrical Insulating Mats in Middle East**. Our mats are approved by high voltage laboratories.

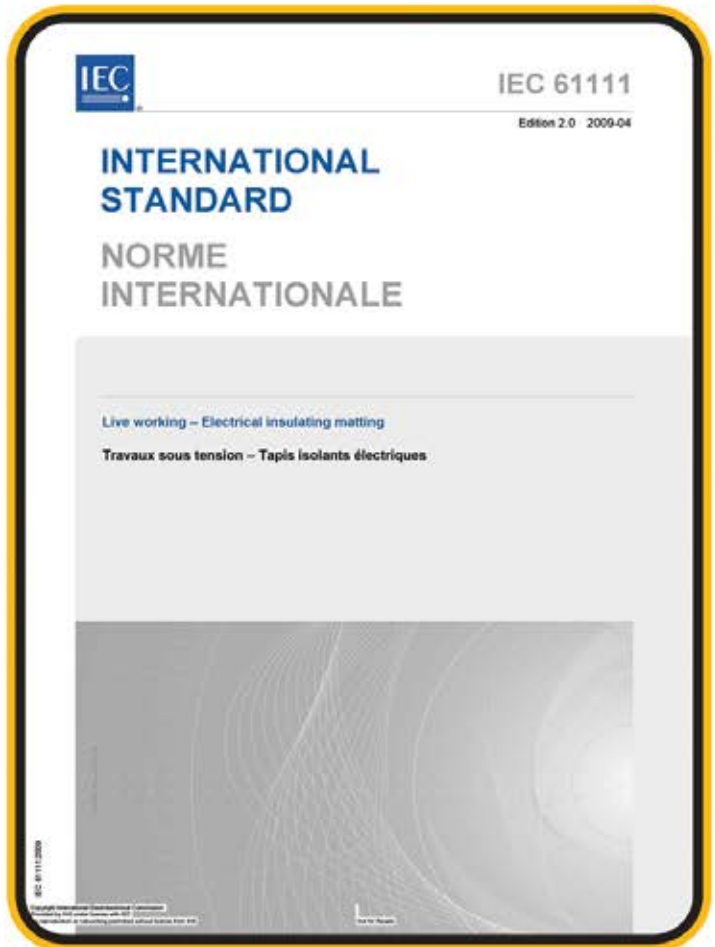

Our mats are made according to 

Ideal to be used for operations related to:

- High voltage panels
- Sub-stations
- Power transformer rooms
- LT & HT labs
- Near bus-bars
- Near control panels

 **Electrical Insulating Safety Symbol**

Electricity can turn you off!

Unique characteristics of our electrical insulating mat:

- ⚡ High dielectric strength up to 57 kV
- ⚡ Suitable physical and mechanical properties to withstand trolley movement, mobile electrical equipments and foot traffic
- ⚡ Applicable for both AC & DC electrical insulation
- ⚡ In the form of roll with thickness range of 3-20mm and 1m width

- ⚡ Available in blue, green, orange and red colors
- ⚡ Water and moisture resistance
- ⚡ Appropriate anti-skid properties

- ⚡ Excellent resistance against tearing and scratching
- ⚡ Fire retardant, self extinguishing properties
- ⚡ Exhibit good elongation & tensile strength properties

- ⚡ Manufactured without any metallic derivatives or carbon additives
- ⚡ Applicable for all fields of generation, transferring, distribution and consumption of electricity

Electrical Insulating Mats

Safety By Choice, Not By Chance!
